DEVOPS ENGINEER FOR SAP S CLOUD MANAGEMENT PLATFORM
Chicago, IL

06/2004 - 03/2011

- Enhancing and supporting a build framework for continuous deployment and platform automation
- Running development, stage and production environments and deployments
- Supporting and engaging with agile methodologies
- Designing and implementing a platform including automated provisioning, security, and management infrastructure
- Establishing and running the processes for monitoring, security and infrastructure life cycle
- Proven experience of Infrastructure planning and exposure to different high-availability IT infrastructures
- Strong knowledge & practical experience with Ansible/Puppet/Bosh
- Programming experience with Python/ GO
- High Availability and Load Balancer Solutions such as Nginx. F5, etc

EDUCATION

UNIVERSITY OF PHOENIX - NEW MEXICO CAMPUS
Engineer's Degree in Technology

2000 - 2004

PROFESSIONAL SKILLS

- Soft skills such as ownership and proactivity, good interaction and clear communication skills
- Strong experience with containerisation (Docker)
- Experience designing and implementing mobile applications and services
- Experience designing and implementing cloud-based applications, awareness of main public cloud offerings (Microsoft Azure, AWS, GCE)
- Experience working with scripting languages (Bash, PowerShell)
- Experience in designing and implementing advanced automation pipelines with Jenkins
- Experience with building/testing distributed systems

CREATE A DEVOPS ENGINEER CLOUD RESUME

How to write Devops Engineer Cloud Resume

Devops Engineer Cloud role is responsible for design, architecture, security, software, automation, languages, troubleshooting, remediation, collaboration, optimization.

To write great resume for devops engineer cloud job, your resume must include:

- Your contact information
- Work experience
- Education
- Skill listing

Contact Information For Devops Engineer Cloud Resume

The section contact information is important in your devops engineer cloud resume. The recruiter has to be able to contact you ASAP if they like to offer you the job. This is why you need to provide your:

- First and last name
- Email
- Telephone number

Work Experience in Your Devops Engineer Cloud Resume

The section work experience is an essential part of your devops engineer cloud resume. It's the one thing the recruiter really cares about and pays the most attention to.
This section, however, is not just a list of your previous devops engineer cloud responsibilities. It's meant to present you as a wholesome candidate by showcasing your relevant accomplishments and should be tailored specifically to the particular devops engineer cloud position you're applying to. The work experience section should be the detailed summary of your latest 3 or 4 positions.

Representative Devops Engineer Cloud resume experience can include:

- Good understanding of TCP/IP networking and network security
- Get a very good understanding of all product scenarios

- Experience in one or more of the following DevOps tools: Gitlab, Jenkins, Ansible
- Experience with virtualization technologies in Linux based environments (hypervisor and/or container-based virtualization)
- SAP applications and services enable customers to operate profitably, adapt continuously, and grow sustainably
- Designing, implementing and refactoring code (typically Java, JavaScript, or C#)

Education on a Devops Engineer Cloud Resume

Make sure to make education a priority on your devops engineer cloud resume. If you've been working for a few years and have a few solid positions to show, put your education after your devops engineer cloud experience. For example, if you have a Ph.D in Neuroscience and a Master's in the same sphere, just list your Ph.D. Besides the doctorate, Master's degrees go next, followed by Bachelor's and finally, Associate's degree.

Additional details to include:

- School you graduated from
- Major/ minor
- Year of graduation
- Location of school

These are the four additional pieces of information you should mention when listing your education on your resume.

Professional Skills in Devops Engineer Cloud Resume

When listing skills on your devops engineer cloud resume, remember always to be honest about your level of ability. Include the Skills section after experience.

Present the most important skills in your resume, there's a list of typical devops engineer cloud skills:

- Experience working with non-relational databases (MongoDB, GraphDB, etc.)
- Good working knowledge of widespread software development tools such as git, github, nexus, maven, etc
- Hands on experience in load & security tests
- Strong background in PaaS solutions, such as Cloudfoundry, Heroku
- Experience with cloud platforms such as AWS, Openstack, GCP
- Working with lead engineers and architects on breaking-down, scoping and estimating tasks

List of Typical Experience For a Devops Engineer Cloud Resume

1 **Experience For Openstack Cloud Infrastructure Devops Engineer Resume**

Deployment of SAP's Machine Learning Services to various cloud providers. Onboarding of new customers

Maintain Infrastructure and services once they are live by measuring and monitoring availability, latency and overall system health

Work in a cross-functional agile team collaborating closely with colleagues in an international environment

Engage in continuous integration, continuous deployment and continuous testing of infrastructure and services

Scale systems sustainably through mechanisms like automation and evolve systems by pushing for changes that improve reliability and velocity

2 Experience For Devops Engineer for SAP s Cloud Management Platform Resume

Automation of development and deployment processes

Management of distributed cloud landscapes (Infrastructure as Code)

Continuous delivery of our software

Engage in and improve the whole lifecycle of infrastructure and services—from inception and design, through deployment, operation and refinement

Support infrastructure and services before they go live through activities such as system design consulting, developing software platforms and frameworks, capacity planning and launch reviews

3 Experience For Devops Cloud Engineer for Machine Learning Resume

Support incident resolution and work on lesson learned and preventive maintenaince (HW/SW)

Analyze continuously process and performance - Proactive Problem Management

Ensure infrastructure and/or application availability and continuously optimize resource usage

Prepare and continuously improve technical documentation

List of Typical Skills For a Devops Engineer Cloud Resume

1 Skills For Openstack Cloud Infrastructure Devops Engineer Resume

Working within an international SCRUM team with people sharing a common passion for software and technology

Hiring in our Santa Clara, CA office

Working across multiple teams to deliver an end product

Customer Care & Billing

"Containerization technologies". (Or being eager to learn.)

An agile way of working (SCRUM) and capability to comply with standards and best practices

An international working environment with exposure to successful business cultures and practices from the US, Europe and Asia / Pacific

A competitive salary, benefits and flexible working hours

2   Skills For Devops Engineer for SAP s Cloud Management Platform Resume

Efficient communication, communication with 3rd parties

Able to provide 7/24 shift coverage

Experience with at least one of the following cloud-related technologies & concepts: Cloud Foundry, Kubernetes, Docker, AWS, Azure, OpenStack or other IaaS/PaaS environments

Knowledge of programming and scripting languages, preferably Python, Java, Javascript, bash, C++ and Go

Position reports to IT Manager

As market leader in enterprise application software, SAP helps companies of all sizes and industries innovate through simplification

From the back office to the boardroom, warehouse to storefront, on premise to cloud, desktop to mobile device – SAP empowers people and organizations to work together more efficiently and use business insight more effectively to stay ahead of the competition

SAP's Cloud Delivery center in Budapest is a key location responsible for Operating SAP's Cloud Products (S/4HANA, IBP, IoT applications, Machine Learning Platform etc.)

With highly skilled teams exposed in new generation technologies like Hana DB, Hana XS Engine, NetWeaver / ABAP, Java, Internet Of Things, Machine Learning etc. Budapest Delivery center is one of the best places to get exposed to various Cloud concepts, On-demand solutions and SAP Cloud technologies, in a global landscape

3   Skills For Devops Cloud Engineer for Machine Learning Resume

3 types of job are open

CI/CD processes and tools: GitLab, Ansible, Kubernetes, Tosca

CI/CD processes and tools: Jenkins, Maven

Cloud Technologies Openstack, Docker

Operation Automation: IBM Netcool, OpenNMS

SDN, VNF, NFV Orchestration, OSS, AAA

Public/Private Cloud Architectures

4   Skills For Cloud Foundry Devops Engineer Resume

Admin of Unix/Linux based system

Hands-on management of cloud infrastructure solutions

Linux system level and network analysis

Modern web development, patterns and practices, web application security

"Continuous integration", deployment methods/pipelines. (Jobs, builds, deployments.) (Jenkins, … .)

IP protocols/Open flow

5   Skills For Devops / Cloud Release Engineer Resume

Smart Grid Gateway

SCM such as Git

DevOps tools such as Puppet, Ansible, Docker, OpenShift, Kubernetes, …

The opportunity to join a market leader in data security

The opportunity to help us shape the future of "state of the art" software solutions

6   Skills For Airbus Devops Cloud Engineer Vacancies Resume

A dynamic, informal and pleasant environment with room for initiative

Daily exposure to new and innovative ideas and motivated people

Possibilities for personal development

A DevOps background and exposure to tools for configuration management and infrastructure as code

An interest in hardware acceleration (GPU, TPU, FPGA)

An expansive knowledge of container orchestration solutions
